CHEROKEE COUNTY CODE

Sec. 19-2. Maintenance of existing roads.

(b) Liability Permits: It is the responsibility of any person, company agency, or other entity engaging in any activity for which it is determined to have potential for damaging county roads and rights-of-way shall be required to obtain a liability permit prior to engaging in said activity within the public right-of-way.

(c) Any person who causes damage to a county road, ditch, or drainage facility or who deposits any debris on a road right-of-way shall be held liable and shall be required to make proper repairs or remove said debris.

(d) Any repairs to a county road or drainage facility required through the liability permit or due to individual negligence shall be inspected and approved by the county road foreman prior to release of the individual's responsibility to the county. Inspection and approval of both the road base and surface paving shall be obtained.
